NATIONAL INSTITUTE OF HYDROLOGY
JALVIGYAN BHAWAN
ROORKEE - 247 667
INDIA

TRAINING COURSE ON:

HYDROLOGICAL MODELLING

CONTENT

1.	Basic Hydrology - <i>S M Seth, Rakesh Kumar, R. Mehrotra</i>	1
2.	Hydrological Modelling & Its Relevance to India - <i>S M Seth</i>	47
3.	Calibration and Validation of Hydrological Models - <i>R D Singh</i>	65
4.	Basic statistics - <i>R D Singh & Aditya Tyagi</i>	77
5.	Statistical modelling of rainfall data - <i>K S Ramasastri</i>	133
6.	Statistical modelling of annual maximum peak floods - <i>Rakesh Kumar</i>	149
7.	Linear perturbation model - <i>A B Palaniappan</i>	199
8.	Regression based rainfall-runoff modelling - <i>R D Singh</i>	211
9.	Stochastic modelling of rainfall data - <i>K S Ramasastri</i>	221
10.	Stochastic modelling in hydrology - <i>Aditya Tyagi</i>	233
11.	Conceptual models for IUH derivation - <i>R D Singh</i>	249
12.	Event based distributed rainfall-runoff model - <i>Hemant Chowdhary</i>	261

13.	Rainfall-runoff modelling using GIUH approach - <i>Hemant Chowdhary</i>	269
14.	Rainfall-runoff modelling in the mountainous catchments - Application of UBC watershed model - <i>Pratap Singh</i>	281
15.	A conceptual rainfall runoff model - <i>S K Jain</i>	293
16.	Monthly rainfall-runoff model using water balance approach - <i>R. Mehrotra</i>	305
17.	Application of SHE Model - <i>S K Jain</i>	325
18.	Study of Impact of soil & land use changes on hydrological regime using SHE Model - <i>S K Jain</i>	345
19.	Water quality - an Introduction - <i>C K Jain</i>	355
20.	Recording and processing of data - <i>C K Jain</i>	367
21.	Development of water quality index - <i>Aditya Tyagi</i>	377
22.	Uncertainty analysis of hydrologic and water quality models - <i>Aditya Tyagi</i>	405
23.	Stochastic modelling of dissolved oxygen in the Yamuna River at Delhi - <i>Aditya Tyagi</i>	419
24.	Statistical water quality modelling (with special emphasis to phosphorous modelling) - <i>Aditya Tyagi</i>	431
