Foreword

Preface

About IAH

SESSION - I

SURFACE WATER MANAGEMENT IN CHANGING ENVIRONMENT

1. **Assessing the Impact of Climate Change on Surface Water Availability and Hydro Power Generation from an Existing Project**
Sharad K. Jain, Wisnu Pramudio and D. Khare 3
2. **Integrated Water Resource Development Plan For Sustainable Management of Gurramkonda Watershed**
A. Mariya Raju, B. Sunanda, N. Venkaiah C.V.S. Sandilya and K. Mruthunjaya Reddy 13
3. **Changing Environment versus Urban Development: A Case Study**
K L Dave and Man Mohan Singh 21
4. **Irrigation Efficiencies: Practical Difficulties and Measures for Its Improvement**
D.K. Dobariya 29
5. **Impact of Landuse Changes on Surface Runoff in Beda Catchment, Narmada Basin in Central India**
Tejram Nayak, Abhijit Soni and M.K. Verma 41
6. **Farmer's Participatory Action Research for Water Management Interventions in Canal Command**
R.K. Sahu, A.K. Pali and Jitendra Sinha 57
7. **Water Management: Need of the Country**
Veena Chaudhary and Jagvir Singh 69
8. **Assessment of Water Resource Sustainability – A Case Study from North India**
D.C.Singhal, S.R. Yadav and Sudhir Kumar 79

9. **Climate Change and its Impact on Water Resources - A Case Study**
Maninder Kaur Sidhu and Siby John 93
10. **Infiltration Modelling for Forested Micro Watersheds in Mussoorie Region of Lower Himalayas**
Nuzhat Qazi, S. R. Kumar, S. P. Rai, M. P. Singh, S. P. S. Rawat, J. V. Tyagi and R.K. Tiwari 101

SESSION – II

GROUND WATER MANAGEMENT IN CHANGING ENVIRONMENT

Key Note Paper

Crucial Role of Aquifer Mapping in Sustainable Groundwater Management in the context of Changing Environment

S.C. Dhiman and R.C.Jain 113

1. **Identification of Recharge Source for Jodhpur City**
Birendra Pratap and G.S. Yadav 121
2. **Application of RETC Software Program in Estimation of Soil Hydraulic Parameters in Lokapavani Catchment**
Sanjay Mittal and C. P. Kumar 127
3. **Groundwater Sustainability versus Urbanization: A Case Study from Haryana**
Ram Karan Singh, Vijender Kumar Malik and S. K. Singh 137
4. **Impact of Geology and Landuse on Sediment Yield in Micro-Watersheds of Himalayas**
S. P. Rai, J.S. Rawat, R.D. Singh and Pankaj Garg 147
5. **Ground Water Management in Jhamarkotra Mines**
Kumkum Mishra, Sudhir Kumar and Dinesh Koundal 157
6. **Integrated Water Resource Management: A Hydrogeological Perspective**
Prawal Athaiya 167
7. **Assessment of Aquifer Vulnerability to Saltwater Intrusion using Modified Galdit Factors-A Case Study**
Chirashree Mohanty, S.C. Behera, P.K Mohapatra and S.Mohapatra 175

8. **Ground Water Vulnerability Assessment for Roorkee Town** 185
D.C. Singhal, A.K. Seth and Supriya Mishra

SESSION – III

EMERGING TECHNIQUES IN WATER RESOURCES MANAGEMENT - I

Key Note Paper

Space Technology Application for Climate Change Studies with Special Emphasis to Hydrological Regime

S. P. Aggarwal and P.S. Roy 201

1. **Gangotri Glacier Study using Remote Sensing, GIS and Long Term Temperature Data** 209
Praveen K. Thakur, Vaibhav Garg, Purevdagva Khalzan and S.P. Aggarwal
2. **Web GIS Application for Flood in Upper Assam** 219
D.S. Rathore, Deepa Chalisgaonkar, S.R. Kumar and B.C. Patwary
3. **Development of a GIS Based River Basin Bodel** 225
Debasis Sadhukhan
4. **Integrated Water Resource Development Plan for Sustainable Management of Tigaleru Watershed, Dornala Mandal** 241
G Arun Kumar, A. Mariya Raju, N. Venkaiah, C.V.S. Sandilya and K. Mruthyunjaya Reddy
5. **Artificial Ground Water Recharge Zones Mapping Using Remote Sensing and GIS : A Case Study** 251
Amanpreet Singh, Sudhindra N. Panda and K. S. Kumar
6. **Hydrological Assessment for Renovation of tanks using Geo-informatics** 267
G.Prasada Rao, V.V.R.M.Narayana Rao and K.Mruthyunjaya Reddy
7. **Preliminary Investigations on Dhansiri (South) River Basin in NE India** 273
S.R. Kumar and D.S. Rathore
8. **Runoff Estimation from a Small Watershed using GIUH Approach in a GIS Environment** 287
M. K. Nema and A. K. Lohani

SESSION-IV

EMERGING TECHNIQUES IN WATER RESOURCES MANAGEMENT - II

Key Note Paper

Role of Isotope Techniques in Water Resources

P. S. Datta

301

1. **Optimal Reservoir Operation for Hydropower Generation**

R. Arunkumar and V. Jothiprakash

311

2. **A Chaotic Analysis of Koyna Reservoir Catchment Rainfall Data**

T.A. Fathima and V. Jothiprakash

319

3. **Modeling Sediment Runoff : Case Studies from Indian Rivers using ANN Technique**

Archana Sarkar, Rakesh Kumar and R.D.Singh

329

4. **Estimation of Spatial Erosion using ANSWERS Model**

J.V. Tyagi, Sanjay K. Jain and Rakesh Kumar

341

5. **Computation of Transport Capacity of Wash Load in Alluvial Channels at Limiting Stage**

N.K. Khullar, U.C. Kothiyari and Jaspal Singh

351

6. **Surface Water and Groundwater Interaction along the River Yamuna in NCT, Delhi**

Sudhir Kumar, Kumkum Mishra and Bhishm Kumar

357

7. **Downscaling of Climate Variables using Support Vector Machine**

Kuji Murtiningrum, SK Jain and ML Kansal

367

8. **Application of Soft Computing Techniques in Flood Forecasting**

Anil Kumar Lohani

385

9. **Cloud Computing and Water Resources Planning and Management**

Alok Shrivastava

399

10. **Soil Erosion based Prioritization and Development of CAT Plan for Catchment: A Case Study of Bundelkhand**

R.K. Jaiswal, D.K. Dehariya, A.K. Nema, T. Thomas and R.V. Galkate

409

SESSION - V

MANAGEMENT OF HYDROLOGICAL EXTREMES

- 1. Simulating the Impact of Forest Cover Change on Annual Stream Flow from a Forested Watershed**
B. Venkatesh, B.K. Purandara and S. Varadaraju 423
- 2. Water Availability Assessment in Kharun River under Regulated and Virgin Flow Conditions using Mike Basin**
Ravi Galkate, Palak Mehta, R.K. Jaiswal and T. Thomas 435
- 3. Regional Flood Frequency Analysis using L-moments for Mahi and Sabarmati Subzone 3(a)**
Rakesh Kumar, P. Mani, Manohar Arora, Jagadish Patra and Archana Sarkar 445
- 4. Evaluation of Drought Scenario in Sagar and Chhatarpur Districts in Bundelkhand Region of Madhya Pradesh**
T. Thomas, R. V. Galkate, R. K. Jaiswal and N. C. Ghosh 455
- 5. Effect of Two Hydroelectric Projects in Series on the Low Flow Characteristics of Satluj River**
Pradeep Kumar, U. C. Chaubey and S. K. Mishra 467
- 6. Estimation of Potential Evapotranspiration under Changing Environment- A Case Study**
Rama Mehta, Kumar Garvit, Hari Om, V. K. Dwivedi and Vipin Kumar 481
- 7. Urban Flooding in Changing Environment**
S. K. Sharma, C. K. Jain and R. D. Singh 493
- 8. Possible impact of Deficit Rainfall on Water Availability in Sukhna Lake, Chandigarh during summer of 2012**
S.D. Khobragade, Prabhat Semwal, R.D. Singh and A.R. Senthil Kumar 501

SESSION - VI

ENVIRONMENT AND WATER QUALITY MANAGEMENT

Key Note Paper

Water Quality Management in Changing Environment

R. C. Trivedi 515

**1. Groundwater Quality Evaluation in Relation to Health Hazards :
A Case Study**

Arun Kumar, Naresh Kochhar and Veena Dadwal 531

2. Utilization of Sludge for Sustainable Development of Society

Vaishali Sahu 545

3. Cadmium Removal from Aqueous Solutions by adsorption on Sawdust

V. Geetha Varma 555

**4. Arsenic Management Strategies for Ground Water Irrigation
in Murshidabad District**

S. Halder, A. Banerjee, R. N. Saha and N. Naha 565

5. Assessment of Ground Water Quality in Metropolitan Town of Meerut

C. K. Jain and R. D. Singh 579

6. Fluoride Content in the Groundwater of Dabwali

Bhupinder Singh and Manjeet Bansal 597

7. Removal of Organics and Colour from the Wastewater of Denim Industry

Rajesh Singh and V. K. Choubey 605

**8. Geoelectrical Investigations and their Correlation with Groundwater
Depth and Quality in Kaithal District of Haryana**

S. K. Goyal, A. K. Narula, G.K. Sethi, Manisha and B. S. Chaudhary 613

9. Water Quality Status of India in Changing Environment

M. K. Sharma, Omkar Singh and V. K. Choubey 629

**10. Geogenic Contaminants in Groundwater of North East India -
Status and Treatment Options**

C. K. Jain and R. D. Singh 639

11. **Assessment of Ground Water Quality using Spatial Variability Analysis**
Omkar Singh, M.K. Sharma, V.K. Choubey and R.D. Singh 647

SESSION - VII

WATER EDUCATION AND CAPACITY BUILDING

1. **Development of an Information System for Research Papers Related to Hydrology**
Manoj Goel, Deepa Chalisgaonkar and Rajesh Agrawal 661
2. **Assessing the Potential for Rooftop Rainwater Harvesting: A Hope for Semi-arid Region in Haryana**
Omvir Singh and Sushila 667
3. **Capacity of Water Harvesting Techniques for Water Management**
N.K. Khullar and Sushma Walia 679
