

*Training Course*  
*on*  
**Hydrology of Lakes for  
Sustainable Human Benefits**

(June 25 -29, 2007) at Chandigarh

**Organized by**

**Environmental Hydrology Division**

**National Institute of Hydrology, Roorkee - 247 667**  
**&**

**Department of Geology, Panjab University, Chandigarh-160 014**

Training Course on  
**HYDROLOGY OF LAKES FOR SUSTAINABLE  
HUMAN BENEFITS**  
(25<sup>th</sup> –29<sup>th</sup> June, 2007, Chandigarh)

## **LECTURE NOTES**

Organized by

Environmental Hydrology Division  
National Institute of Hydrology, Roorkee-247 667  
&  
Centre of Advanced Study in Geology,  
Department of Geology, Panjab University, Chandigarh-160 014

# TABLE OF CONTENTS

S. No.	Topic of Lecture	Page No.
1.	An Overview of Lakes and Their Management: The Indian Scenario - <i>Dr. K.D. Sharma, Director, NIH, Roorkee</i>	1 – 21
2.	Introduction to Lakes & Their Hydrology - <i>Sri V.K. Dwivedi, Scientist E1, NIH, Roorkee</i>	22 – 63
3.	Hydrological Monitoring of Lakes & Their Catchments: Water Quality, Bathymetry and Soils Properties - <i>Sri Omkar Singh, Scientist E1, NIH, Roorkee</i>	64 – 92
4.	Tectonic Control in the Evolution of the Lakes in the Himalayas - <i>Dr. Ravindra Kumar, Professor &amp; Head, Department of Geology, PU, Chandigarh</i>	93 – 99
5.	Water Pollution and Advanced Detection Techniques - <i>Dr. M.K. Sharma, Scientist B, , NIH, Roorkee</i>	100 – 118
6.	Application of Remote Sensing in Sedimentation Studies of Lakes and Reservoirs - <i>Dr. V.K. Choubey, Scientist F &amp; Head (EHD), NIH, Roorkee</i>	119 – 128
7.	Radio-isotopes Dating of Lakes Sediments - <i>Dr. B.K. Das (Retd. Professor), Department of Geology, PU, Chandigarh</i>	129 – 132
8.	Fundamentals of GIS its Application in Hydrology - <i>Dr. Sanjay K. Jain, Scientist E1, NIH, Roorkee</i>	133 – 146
9.	Modelling of Lake-Aquifer Interactions - <i>Dr. S.K. Singh, Scientist E1, , NIH, Roorkee</i>	147 – 159
10	Eutrophication Management in Lakes and Reservoirs - <i>Ms Geeta Arora, Asst. Professor, Dept. of Civil Engineering, PEC, Chandigarh</i>	160 – 164
11.	Hydro-geological Observations around Lakes/Wetlands - <i>Dr. K.P. Singh, Professor, Department of Geology, PU, Chandigarh</i>	165 – 167
12.	Application of Mike Basin (DHI Software): A Hydrological Modelling Tool on Lake Sustainability - <i>Sri Ashok Tarai, DHI (India) Water &amp; Env. Pvt. Ltd. New Delhi</i>	168 – 171
13.	Study of Lake Sediments and its Significance - <i>Dr. G.S. Gill, Professor, Department of Geology, PU, Chandigarh</i>	172 – 177
14	Laboratory Techniques in Water Quality Analysis - <i>Dr. Naresh Tuli, Reader, Department of Geology, PU, Chandigarh</i>	178 – 182
