

CONTENTS

SI No.	AUTHOR(S)	TITLE	PAGE
Theme - I : Floods			
1.	Seth, S.M. and Singh, R.D.	Flood Estimation in India Using Regional Frequency Analysis	I-1
2.	Gupta, P.N.	Regional Flood Frequency Approach Estimation of Flood Peaks for Mahi and Sabarmati Basin (Sub-Zone 3a)	I-16
3.	Thirumalai, S. and Sinha, P.B.	An Alternative Statistical Regional Approach for Estimating Design Flood Peak	I-27
4.	Rakesh Khosa	Weighted Ordinary Least Square Algorithm for Batch Processing	I-41
5.	Rangapathy, V. Karmegam, M Sakthivadivel, R John, V.K. and Lekha P. Mathai	A Comparative Analysis of Hydrological and Diffusion Methods of Flood Routing	I-54
6.	Santoshi, M.K.	Development of Dimensionless Hydrographs from Machhu Dam-II Failure Using DAMBRK Model	I-66
7.	Godbole, M.L.	Design of Flood Embankments of Katjuri River at Cuttack City	I-87
8.	Ganguly, S.S.	Problems of Flood Control	I-95
9.	Pandharinath, N.	A case study of unprecedented floods in the Godavari River during August 1986.	I-102
Theme - II : Drought			
1.	Singh, Ranjit	An Observational study of Tropics Mid-Latitude Interactions during Different seasons	II-1
2.	Singh, Ranjit	Indian Droughts-Quasi Biennial Oscillations of Stratospheric winds	II-11
3.	Ramasastri, K.S.	Estimation of Evaporation from free Water Surfaces	II-16

Sl.No.	AUTHOR(S)	TITLE	PAGE
4.	Reddy, P. Bhaskar and Venkataraman, P.	Statistical Method to Estimate Drought Occurrence	II-28
5.	Sikka, A.K. and Lohani, V.K.	Drought Analysis Using Soil Moisture Status	II-37
6.	Prasad, Rajendra	Intensification and Recession of Droughts in a Dry Farming Region	II-44
7.	Verma, P.K. Sikka, A.K. and Singh, R.D.	Stream Flow Analysis for Hydrological Drought of Krishna Basin	II-55

Theme - III : Man's Influence on Hydrologic Cycle

1.	Bhatia, K.K.S	Dissolved Oxygen Modelling in Hindon River (U.P.)	III-1
2.	Chaudhary, U.K. and Singh, G.S.	The Ganga Water Pollution and Waste Water Supply System in Varanasi	III-19
3.	Joshi, S.B. Singhal, D.C. Seth, A.K. Mathur, R.P. and Singhal, B.B.S.	Hydrochemical Studies of Natural Waters of Upper Hindon Basin, U.P.	III-37
4.	Adhikari, R.N. and Chittaranjan, S.	Hydrological Analysis for a Prepared Agricultural Watershed	III-49
5.	Kalra, A.M. Kumar, Satish, and Parida, B.P.	Effect of Afforestation on Runoff from a Forested Mountainous Catchment	III-62
6.	Lohani, V.K.	Assessment of Forest Influences on Ground Water Regime	III-71
7.	Samraj, P. Raghunath, B. Lakshmanan, V. and Haldorai, B.	Studies on Hydrological Impact of Conversion of Natural Grasslands into Bluegum Plantations (Eucalyptus Globulus) in the Nilgiri Hills	III-81

Sl.No.	AUTHOR(S)	TITLE	PAGE
8.	Lokesh, K.N. Rudramuniyappa, M.V. Nijagunappa, R. and Somasekar, B.	Hydrogeological, Hydrogeophysical, Hydrogeochemical Studies in Sandur Area, Bellary District, Karnataka	III-92
9.	Kotaiah, B. and Baig, M.Y.A.	Influence of Growing Environmental Pollution on the Natural Hydrologic Cycle	III-100
10.	Luthra, S.D.L	A Focus on Man's Interference with Hydrologic Cycle in Water Resources Development	III-109
11.	Kapoor, P.N. and Gosain, A.K.	Impact of Watershed Management on Hydrological Regime	III-117

Theme - IV : Remote Sensing

1.	Rao, M.B.S., Kamal, P. and Mishra, D.	Remote Sensing Studies for Groundwater Investigations in Part of Dhasan River Basin, Uttar Pradesh	IV-1
2.	Chopra, R.P.S.	Delineation of Waterlogging in Canal Command Area Using Landsat TM Data-A Case Study in South Western Part of Punjab.	IV-11
3.	Choubey, V.K.	Land Use Map of Indore Bhopal Region from Landsat MSS Data	IV-16
4.	Kumar, Anil	Hydrological Land Use/Vegetal Cover Mapping and Change Detection through Landsat MSS Imageries-A Case Study of Saharanpur District.	IV-22
5.	Dubey, O.P. Sri Niwas and Awasthi, A.K.	Ground Water Recharge Evaluation Using Satellite Data	IV-32
