

List of Figures

Figure no.	Figure caption	Page no.
1.1	Major sources and routes of Arsenic in soils and aquatic ecosystem (Source : Donald L. Sparks, 2005)	2
2.1	Global Scenarios of Arsenic Contamination Affected Countries	11
2.2	Major Arsenic Affected Regions in Asia	11
2.3	Arsenic Affected Areas in Different States in India	15
2.4	Arsenic affected stretches in Ganga Plains in India with reference to Ganga-Meghna-Brahmaputra Plains.	16
2.5	Groundwater Arsenic Contamination status in West Bengal up to the year 2008.	20
2.6	Scenarios of detailed groundwater arsenic contamination study carried out in Murshidabad district in West Bengal	21
2.7	Location of 15 Arsenic affected districts in Bihar	22
2.8	Arsenic affected districts along the Ganga river course in Bihar	23
2.9	Photograph showing Some arsenic patients from arsenic affected districts of Bihar	23
2.10	Arsenic affected districts in UP and Bihar along the river course of the Ganga	24
2.11	Photograph showing some arsenic affected patients from UP	25
2.12	Arsenic affected areas in Jharkhand	26
2.13	Photograph showing cancer patient with arsenical skin lesions from Jharkhand state	26
2.14	Arsenic affected areas in Manipur	27
2.15	Photograph showing arsenical skin lesions patients with keratosis from Chattisgarh state	28
2.16	Photograph showing susceptible children affected by arsenical skin lesions	29
2.17	Effect of Arsenic in food chain.	30
4.1	Malda surface water supply scheme, West Bengal	63
4.2	North 24 Paraganas surface water supply scheme, West Bengal	63
4.3	Schematic of two exploratory wells constructed at Beldanga in Murshidabad district in West Bengal to tap arsenic free deep aquifers	66
4.4	Disposition of delineated arsenic free deep aquifers in some parts of arsenic infested areas in West Bengal	67
4.5	Arsenic Removal Plant (ARP) connected to an existing piped water supply schemes (PWSS)	68
4.6	The Quaternary geological map of the Middle Ganga Plain, Bihar	72
4.7	Lithological formations of the arsenic affected areas	73
5.1	Arsenic Removal Devices Developed and Promoted by Different Organizations in various places in West Bengal	106-107

7.1	Increasing malignancy due to Arsenic contamination in West Bengal	131
7.2	Relationship between arsenical skin lesion and average arsenic content in drinking water	132
8.1	Photograph showing a hand pump connected with arsenic removal filter successfully operated under the community participation in O & M.	146
8.2	Photograph showing a hand pump connected with similar arsenic removal filter left out non-operational due to lack of minor maintenance.	146
8.3	Framework of different activities and their operational linkages with Government of India schemes	152
10.1	Mission Management Committee	163
