

Subject Index

- Acacia, 69, 101, 103
Afforestation, 288, 292, 306
Agro-forestry system, 259, 274
Alternative farming system, 89
Antecedent soil moisture, 65
Aquifer parameters, 207, 225
ARCGIS, 5
- Baseflow, 60, 90
Bifurcation ratio, 132
Bio-geochemical cycles, 80
Bio-fencing, 274
Bulk density, 256
BUN cultivation, 253
- Capacity building, 297, 307, 314, 334
Catchment water balance, 164
Cloud forest, 31
Contour bunding, 254
Crop coefficient, 169
- Deep drainage, 155
Deforestation, 252, 287
Drainage density, 135
Dry season flows, 287
Dykes, 81, 216
- Ecological balance, 289, 297
Electrical resistivity, 225
Elongation ratio, 133
ERDAS, 4,
Eucalyptus, 44
Evapotranspiration, 130, 145, 163
Evergreen forest, 138
- Fissures, 222
Forest management, 287
Forest policy, 108, 288
Forest-water relationship, 286
Fracture/fault, 22, 218, 222
- GARMIN, 5
Geographical information system,
5, 321
Geometric correction, 6
GPS, 5
Green-Ampt equation, 147, 245
Ground water availability, 209, 223
Ground water draft, 200
Ground water modeling, 197
Ground water mounds, 236
Ground water pollution, 222
Ground water recharge/utilization,
16, 193, 202, 206, 212, 314
Ground water troughs, 236
- Harton's model, 147
Himalayas, 214
Humid tropics, 117
Hydraulic tilting flume, 155
Hydrogeomorphology, 16, 19, 22
Hytographs, 73
- IDRISI, 139
Infiltration, 34, 93, 130, 182, 209,
236, 241
Integrated watershed management,
298
Interception, 30, 130, 145, 173
Interflow, 30, 43

- Joints, 217, 222
- Kostiakov's model, 147
- Land degradation, 267
- Land treatment, 180, 191
- Lineaments, 22, 24
- Morphometric analysis, 21
- Overland flow, 30, 33, 55, 94, 130
- Participatory approach, 300, 304, 314, 329
- People's participation index, 308, 318
- Percolation tank, 191
- Permanent wilting point, 115
- Permeability, 43, 147
- Philip's model, 147
- Pore water pressure, 142
- Quick flow, 30
- Radiometric correction, 6
- Rating curve, 139
- Remote sensing, 6
- Reserve forest, 101
- Richard's equation, 244
- Ruggedness number, 132
- Saturated hydraulic conductivity, 247, 261
- SCS curve number, 112, 118, 190
- Shifting cultivation, 253
- Shola forest, 61, 138
- Silvipastoral, 93
- Slope, 16, 22
- Soil conservation, 182, 189, 306
- Soil erosion, 154, 182, 209, 252, 256, 267, 330, 334
- Soil fertility, 252, 267
- Soil moisture, 248, 267
- Soil water 241
- Sorptivity, 147
- Springs, 217
- Survival rate, 271, 276
- SWAT models, 83
- Synoptic, 16
- Teak plantation, 268
- Thematic, 16
- Transmissivity, 203
- Tropical forests, 33, 44
- Unit hydrographs, 73, 78
- Van-Gunuchten equation, 243
- Water conservation, 21, 189, 209, 334
- Water harvesting structures, 16
- Water policy, 289
- Watershed development, 288, 289, 297
- Wetting front, 241, 245
