

Acknowledgments

The authors of this manual acknowledge the help rendered by the managers and technicians of different isotope hydrology laboratories who had helped at various stages of setting up of the Nuclear Hydrology Laboratory at NIH. Thanks are due to Prof. (Late) Jean Ch. Fontes and his team at the University of Paris-Sud, Orsay, France; Dr. Robert J. Drimmie and his team at EIL, University of Waterloo, Ontario, Canada; and Prof. Mebus Geyh, Philips University of Marburg, Germany. The study group is indebted to Dr. Suresh V. Navada and Mr. A. Radhakrishnan Nair and their team at Isotope Hydrology Section of BARC, Mumbai for continued encouragement, exchange of techniques, nuances and literature connected to the dating facility at NIH. The help rendered by the members of the Working Group of the Hydrological Observations and Instrumentation, particularly Prof. B. P. Singh, in making fruitful suggestions for this manual and other spheres of the laboratory functioning are gratefully acknowledged. The help rendered in the initial stages of the preparation of this manual by Dr. Arvind Kr. Singh, who was working earlier as a Project Officer, is gratefully acknowledged.
