

PRE-CONFERENCE PROCEEDINGS

(ABSTRACTS OF THE PAPERS)

HYDROLOGY AND WATER RESOURCES

An International Conference

in Honour of

PROFESSOR SATISH CHANDRA

December 20-22, 1993

New Delhi

India

PRE-CONFERENCE PROCEEDINGS
(ABSTRACTS OF THE PAPERS)
HYDROLOGY AND WATER RESOURCES

December 20-22, 1993
New Delhi
India

CONTENTS

Theme	Page No.
THEME-I Surface Water Hydrology	1-31
THEME-II Ground Water Hydrology	32-50
THEME-III Remote Sensing and GIS Applications in Hydrology	51-57
THEME-IV Environmental Hydrology	58-74
THEME-V Hydrologic Extremes	75-81
THEME-VI Water Resources Systems	82-89
THEME-VII Water Resources Planning Development & Management	90-104

THEME-I

SURFACE WATER HYDROLOGY

Name of paper	Author/s	Country	Page No.
Complexity, uncertainty and error in hydrologic models	L.J. Lane M.H. Nichols	USA	1
Stratified Muskingum routing in natural channels	M.Karmegam	India	1
Simulation of streamflows for a forested catchment using conceptual models	A.M. Kalra S.K. Goyal	India	1
A comparative evaluation of two rainfall-runoff models for small watersheds	Pushpa Raj Onta Kao Chia-Loong	Thailand	2
Computational aspects in kinematic modelling	Bernhard H.Schmid Wolfgang Summer	Austria	2
Flow resistance for large scale roughness	V.A.Copertino B.De Bernardinis F.A. Sciancalepore A.Sole	Italy	3
A PC based computer program for determining SCS curve number for an ungauged watershed	A.K. Lohani K.K.S. Bhatia	India	3
Short term daily flow prediction for tropical watersheds	M.V. Somsundaram S.K. Srinivasan	India	4
Bayesian unit hydrographs	A. Ramachandra Rao	USA	4
Transfer function models for hydrologic flood routing	M.P. Cherian Prabhir Kumar Pal	India	5
Comparative study of stochastic models for seasonal streamflow generation	K. Srinivasan M.C. Philipose	India	5
Spectral analysis of Cauvery river flows	D.Nagesh Kumar P.P. Mujumdar	India	6
Non stationary time series and hydraulic design	Witold G.Strupozewski	Poland	6
Unit hydrographs for assessment of design floods in Indian tropical region	P.R. Rao	India	7
Spreadsheet application to unit hydrograph analysis	R.I. Patel	India	8
Fractal structure, entropy and energy dissipation in river networks	P. Claps G.Oliveto	Italy	8

Name of paper	Author/s	Country	Page No.
The most probable hydrologic responses of fractal river networks	P.Claps Mauro Fiorentino Giuseppe Oliveto	Italy	8
A nonparametric approach to statistical hydrology : Kernel methods	Upmanu Lall	USA	9
Influence of rainfalls on the geomorphological crisis of March - April 1973 in Basilicata (Southern Italy)	Francesco Sdao Vincenzo Simeone	Italy	10
The use of non-parametric probability distributions in streamflow modeling	Ashish Sharma David G Tarboton Upmanu Lall	U.S.A	10
Design criteria for the improvement of hydrometeorological data acquisition systems automation of some networks in Sicily	G.Rossi, A.Ancarani A.Jakomin	Italy	11
Precipitation gauge density for a Ganga sub-basin	Ramakar Jha Rahul Jaiswal	India	11
Operational hydrology aspects of desertification	Arie Ben-Zvi	Israel	12
Development of a data acquisition system for hydrological measurements	V.C.Goyal B.W.G. Block	India The Netherlands	13
Sensors and systems for measurements on hydrology and water resources	T.K. Sivadas	India	13
Recent developments in estimation of design discharge-their application in Indian Railways	G.P.Garg D.K. Saini P.B. Sinha	India	14
Effect of Vedernikov number on overland flow dynamics	Victor M. Ponce Kelley T.Dillenberger	USA	14
Sensitivity of energy and moisture balance components to subgrid scale precipitation variability	Divya J.A. Ramirez	India USA	14
Paleohydrology of quaternary river systems of north Bihar plains, India	Rajiv Sinha	India	15
Tidal flow measurement and analysis in the rivers of south west region of Bangladesh	M.Shahjahan M.Fazlul Bari M.Jhangir Kabir	Bangladesh	15
Predicting runoff using artificial neural networks	Allen T.Hjelmfelt Jr. Menghua Wang	USA	15

Name of paper	Author/s	Country	Page No.
Streamflow analysis and synthesis by pattern recognition techniques	U.S. Panu	Canada	16
Modeling surface run off with kinematic, diffusion, and dynamic waves	V.M. Ponce	USA	17
Hydrologic safety and rehabilitation of old dams	M.P. Sharma A.Prakash	USA	17
Modeling the effects of climate change on the hydrologic response of mountain watersheds	Alok K.Sikka Ashutosh S.Limaye J.P.Riley	USA	17
Warning of application of the Chezy-Manning formula regardless of channel shape	Witold G.Strupczewski	Poland	18
Investigation of potential flash floods for ungauged region using the Kriging method	Tiao J.Chang Hongyong Sun	USA	18
Modelling evapotranspiration of Dune vegetation	P.J.M. de Laat	The Netherlands	19
Spatial estimation techniques for precipitation analysis-application to a region in India	Balaji Rajagoplanan Ashutosh S.Limaye Alok K.Sikka	USA	19
Experience with snow pillow	Virender Kumar M.B. Ganeshan Bir Singh Negi	India	20
Model study results on flood control aspects of Brahmani river system - an analysis	L.K. Misra B.Mahakul	India	20
Application of linear system models for wash load estimation	N.S.Raghuwanshi R.A.Rastogi Santosh Kumar	USA India	21
Effect of cross-sectional shape on free-surface	Victor M.Ponce Pedro J.Porrás	USA	21
Dam break model, an important tool in hydrology-reference to DAMBRK programme of National Weather Service, USA	B.P.Roy J.N. Nanda	India	22
Use of digital elevation model in runoff modelling	P.K. Garg	India	22
Snowmelt runoff estimation from Goriganga catchment using SRM model	B.P.Parida A.K.Dash	India	23
Estimation of hydrological soil properties for design of drainage system in Bulandshahar area U.P.	M.K.Shukla B.Soni S.L.Srivastava	India	23

Name of paper	Author/s	Country	Page No.
Hydrological forecasting	A.W.Jayawardena	Hong Kong	24
Daily flow forecasting for Negara river basin, Indonesia	R.D.Singh Ranveer Singh Permana Hendrawangsa	India	25
Direct runoff prediction from rural catchments in Kenya, East Africa	J.O.Onyando T.C.Sharma	Kenya	25
Hydrologic design of cross drainage works of Kandi canal	Ram Chand R.B.Lal Sanjeev Suri	India	26
Flood prediction by use of partial duration series	Arie Ben-Zvi	Israel	26
A versatile method for flood quantile estimation using log-pearson type-III distribution with PWW estimators	B.P.Parida Rema Devi Arun Kumar	India	27
Application of HEC - 2 model for palaeoflood studies on Narmada	S.K.Mishra K.S.Ramasastri	India	28
Study of flood variograms	U.C.Chaube R.P. Samayar	India	28
Influence of geographic factors on satellite snow covered area Vs.snowmelt runoff relationship in the Punjab Himalayas	R.P.Gupta R.Sinha M.S.Roohani	India	29
Physically based linear flood routing modeling	Witold G.Strupczewski	Poland	29
Monthly stream flow generation using condensed disaggregation model	R.Mehrotra N.K. Goel Ranvir singh	India	30
The growing need for specialized courses in regional hydrology	Mandouh Shahin	The Netherlands	30
Hydrology technician training need of the day	A.K. Sinha Manohar Arora	India	30

THEME - II

GROUNDWATER HYDROLOGY

Name of paper	Author/s	Country	Page No.
Infiltration subject to time dependent surface ponding : exact results and correspondence to solute transport with nonlinear reaction	D.A.Barry J.Y.Parlange	Australia USA	32
Some numerical experiments on the variably-saturated flow equation	Chittranjan Ray	USA	32
Visualisation of static and dynamic water phenonmena in soil using magnetic resonance imaging	MHG Amin L.D Hall R.J Choreley T.A Carpenter K.S Richards B.W Bache	U.K	33
Hydrologic modelling acknowledging spatial and temporal variations of hydraulic conductivity	R.P.Rudra, W.T.Dickinson R.K.Gupta	Canada	33
Type straight lines for water flow through rough fractures	Zakai Sen	Turkey	33
Analysis of pump test data on Kasai river bed (West Bengal) : A case study	H.P.Patra M.Bandopadhyay G.Banerjee S.N.Mukherjee M.Chowdhury	India	34
Computer application for ground water hydrological study	P.M.Natarajan R.Srinivasan	India	34
Amplifying the Darcy equation using the energy balance of groundwater flow	R.J.Oosterbaan	The Netherlands	34
Recent advances in modelling vadose zone transport	J.Y Parlange Tammo S. Steenhuis Frank Stagnitti Erik Simmelink Bart Nijssen	USA Australia	35
Ground water resource evaluation - a realistic approach	V.M.Sikka D.S.Saini	India	35
Regional groundwater modelling using finite element method	V.Venkateshwar Rao P.B.S.Sarma	India	35

Name of paper	Author/s	Country	Page No.
Groundwater hydrology of Siwana, Western Rajasthan, India - A multi-disciplinary approach	H.Chandrasekharan M.L.Sharma Y.P.Singh	India	36
FEM modelling of artificial recharge basins of different shapes and the underlying aquifer system	A.K.Rastogi S.N.Pandey	India	36
A generalised solution of unsteady flow to a multi aquifer well	M.D.Nautiyal G.C.Mishra Satish Chandra	India	37
Groundwater resources evaluation	Ashim Das Gupta	Thailand	37
Evaluation of recharge to groundwater due to applied irrigation under different crops in Uttar Pradesh using isotope tracer technique - a field study	P.K.Arora, S.N.Rawat S.S. Chhabra Suraj Prakash	India	37
Evaluation of rainfall recharge to groundwater in various types of soil cover & base flow by using radio-isotopes in parts of district Unnao, U.P.	N.C. Saxena R.C. Saxena	India	38
Is it correct to assume that movement of water in unsaturated soil strata is piston flow?	B.P.Singh	India	38
Hydrogeological conditions in the Terai plain of Rupandeh district, Lumbini Zone, Nepal with special emphasis on recharge	G.Krishna Rao Rama Shresta Y.L. Vaidya	India Nepal	39
Waste water renovation through soil aquifer treatment in the river Sabarmati bed at Ahmedabad - pilot study	P.Nema S.K. Gupta P.Sharma T.N.C. Ramaprasad	India	40
Spatial evaluation of groundwater level of Attur Valley, South India - a multivariate approach	R.Jayakumar	India	41
Groundwater exploration and development in Bundelkhand granite terrain in distt. Jhansi	Hassan Feroz	India	42
Planning and development of ground water for irrigation in India	R.S.Saksena S.K.Garg	India	42
Conjunctive water use planning and management models : a state-of-the-art review	Pushpa Raj Onta Ashim Das Gupta	Thailand	43

Name of paper	Author/s	Country	Page No
Significance of palaeo channels for Hydrogeological studies - a case study from alluvial plains of Punjab & Haryana states, India	K.P.Singh	India	43
Control of sea water intrusion - through Battery of injection wells	A.Mahesha S.H.Nagaraja	India	43
Geoelectrical studies for the groundwater investigation near Kurukshetra, Haryana	Mohammad Israil	India	44
Geo-electrical investigations for subsurface configuration in the Indira Gandhi Nahar Command, Rajasthan	H.Chandrasekharan K.S.Sundara Sarma B.Saha D.K.Das	India	44
The Nubian Sandstone basin in North Africa, a source of irrigation water for desert Oases	Mamdouh Shahin	The Netherlands	44
Economic analysis of groundwater cost	A.S.Chawla Osman M.Naggar	India Sudan	45
Techno economic aspects of stream bed blasting, fracture seal cementation and bore blast techniques of groundwater conservation	K.G.Welekar M.S.Vaidya V.K.Murti	India	46
Evolution of the phreatic surface in a finite aquifer due to transient recharge	S.N. Rai R.N. Singh	India	46
Estimation of unsaturated hydraulic properties of an Irish soil	Rama Devi Mehta F.Dolezal	India Czechoslovakia	46
Analysis of large-diameter well pumping test data in fractured rocks with linear flow pattern	M.L.Jat M.S.Acharya	India	47
Estimation of hydraulic characteristics of anisotropic alluvial aquifers from electrical resistivity data	D.C.Singhal E.M.Adam Mohd.Shakeel	India	47
Groundwater-surface water intermixing model and recharge conditions in Delhi area as derived from ¹⁸ O and ^D	P.S.Datta S.K.Tyagi	India	48
Soil gas and ground water radon anomalies associated with earthquake	Manwinder Singh Tarlok Singh	India	48
Development of drinking water source for village Janjala Taluka Sillod by unconventional method	K.S.Namjoshi S.M.Deshpande	India	48

Name of paper	Author/s	Country	Page No.
Water resource evaluation of Kovil AR sub-basin, Harur Taluk, Dharmapuri district, Tamil Nadu	M.Siraz S.D.Shah V.Panchapakesan	India	49
Stream-aquifer interaction with recharge	A.S.Chawla H.R.Thakur	India	49
Estimation of seepage loss from Gandak canal in Uttar Pradesh by using tracer technique	G.K.Rawat R.C.Saxena	India	50
Estimation of canal seepage in a layered porous media using boundary element method	T.I.Eldho B.Vasudeva Rao	India	50

THEME - 3

REMOTE SENSING AND GIS APPLICATIONS IN HYDROLOGY

Name of paper	Author/s	Country	Page No.
Advances in remote sensing application in hydrology	A.K.Chakraborti	India	51
Remote sensing applicaton to hydrological appraisal of water resources of Kolar river basin-Nagpur distt. Maharashtra	K.G.Welekar M.S.Vaidya A.M. Bhokare	India	51
Use of remote sensing sattelite data for watershed mapping- a case study of Dohan river, District Mahendragarh, Haryana	B.S.Chaudhary M.L.Manchanda B.M.Singh	India	51
Application of remote sensing in water bodies identification, mapping and inventory	K.Bhaskara Raju A.Sreenivasa Rao P.Kesava Rao	India	52
Study of Kolahoi Glacier Kashmir from satellite imagery	M.S.Dhanju	India	52
Process studies in forest hydrology : a worldwide review	Peter F.Ffolliott Kenneth N.Brooks	USA	52
Water quality - a remote sensing perspective	K.Bhaskara Raju A.Sreenivasa Rao P.Kesava Rao	India	53
Relationship between forest cover and drainage density in a typical rain forest : an investigation using satellite data	M.R.Venugopal E.J.James	India	53
Geomorphological mapping to study the progradation of Cauvery delta in the palk strait of Tamil Nadu	P.M. Natrajan	India	54
Potential of remote sensing in applied hydrology	Ivan Muzik	Canada	54
Integrated use of remote sensing and GIS methods for ground water exploration in parts of Lalitpur district, U.P.	A.K.Saraf S.K. Jain	India	54
Role of remote sensing and statellite technology in hydrology	S.K.Srivastava	India	55
Forest influence on hydrological parameters	J.S.Rawat	India	55

Name of paper	Author/s	Country	Page No.
Sedimentation studies for Hirakud reservoir	L.K. Mishra S.K. Panda	India	56
Groundwater feasibility in block Jagnair, Distt Agra, U.P., - a case study of visual remote sensing approach	K.Chandra C.S. Agarwal	Inda	56
Remote sensing as a tool in hydrology and water resources	P.K. Garg	India	57
Utility of remote sensing techniques in landslide investigations : an appraisal	R.Sinha A.Kumar P.V. Seethapathi	India	57
Application of various transformations for land use classification in digital image processing	Anii Kumar	India	57

THEME-4

ENVIRONMENTAL HYDROLOGY

Name of paper	Author/s	Country	Page No.
Mechanisms and models of runoff generation on hillslope	Rama Prasad	India	58
Sediment yield from different land uses in small Indian catchments	K.K.S.Bhatia	India	58
Development of a sediment and chemical transport model for agricultural watersheds	Vito A.Copertino Bruno Molino Vito Telesca Vijay P.Singh	Italy USA	58
A conceptual framework for modeling sediment processes in upland watersheds	Vicente L. Lopes Peter F. Ffolliott	USA	59
Application of entropy principles in the rationalisation of water quality networks	A. Kusmulyono I.Goulter	Australia	59
Environmental impact of small storage reservoirs in Punjab	Mohinder Kumar Tarlok Singh	India	60
Environmental aspects of subsurface drainage projects	S.K.Kamra K.V.G.K.Rao	India	60
Changes in flow characteristics of the river Murray in the last 100 years	B.L.Maheshwari K.F.Walker T.A.McMahon	Australia	61
Application of tracers and dyes to assess groundwater contamination potential for glacial-till aquifers	R.S.Kanwar	USA	62
Nutrients runoff modelling of Australian urban catchments	M.Sivakumar S.Boroumand-Nasab	Australia	62
Improved mixing cell model of solute transport in two and three dimensions with nonlinear reactions	K.Bajracharya D.A.Barry	Australia	63
Heavy metal adsorption in soil : comparison of bisolute adsorption models and laboratory experiments	K.Bajracharya D.A.Barry S.Vigneswaran A.Das Gupta	Australia Thailand	63
Environmental impact assessment of artificial reservoirs	Necdet Alpaslan	Turkey	64
Global warming : Its hydrologic impact in the Caribbean	G.S.Shrivastava	West Indies	64

Name of paper	Author/s	Country	Page No.
Hydrochemical aspects of rain-water-a case study of Konkan Region of Western Maharashtra and Wainganga drainage basin of Eastern Maharashtra	K.G.Welekar Mrs. R.V.Badve	India	65
Application of Monte Carlo analysis in ground water contamination modelling	A.Ghosh Bobba	Canada	65
The techniques for assessment of uncertainty in non-point source water quality modelling	A.Ghosh Bobba John Carey	Canada	65
Impact of agriculture on nutrient contamination of water resources	M.L. Sharma	Australia	66
Influence of soil hydrological properties on Allelo-chemical facats under agroforestry system	R.M.Singhal S.Srinivas	India	67
Hydrogeochemistry of groundwater from basalt aquifers - a case study of Baramati Taluka, Pune district	Mrs. R.V.Badve K.G.Welekar	India	67
Fast prediction of runoff removal of pollutants uniformly dispersed in a drainage basin	S.R.Joshi	Canada	68
Break up mode and binding force of FLOC	Md.Delwar Hossain	Bangladesh	68
Water quality models for watershed management	J.R.Williams J.G.Arnold	USA	69
Water quality of Bandalamottu CuPb-Zn mine area, Guntur district, Andhra Pradesh	M.N.Babu P.Sankara Pitchaiah	India	69
Environmental impact and economic aspect of greater Dhaka flood protection structure	M.H. Rahman	Bangladesh	70
Salt water intrusion in central Godavari Delta	T.Thomas T.Vijay P.V.Seethapathi	India	70
Application of GIS in erosion estimation - a case study in Nayer sub watershed of Ramganga river(W) basin using universal soil loss equation	D.S.Rathore	India	71
Hydrologic impacts of partial forest cutting on water yield	S.V.N.Rao Jack King	USA India	71
An assessment of the environmental impact of Tungabhadra project	S.A.Abbasi K.K.S.Bhatia	India	72

Name of paper	Author/s	Country	Page No.
Geochemistry of soil sodicity and ground water salinity in the water logged areas of U.P.	Dhaneshwar Rai D.K.Sharma S.C.Singh	India	72
Ground water quality in Kuttiadi river basin	S.A.Abbasi K.K.S.Bhatia	India	73
A perspective on time-continuous space-discretized solutions of convection-dispersion equation in variable saturated porous media	Sita Ram Singh S.K. Kamra	India	73
Reservoir stratification - case study of a tropical reservoir in Kerala, India	S.A.Abbasi A.V.M.Kunhi K.K.S.Bhatia	India	73
Environmental consideration in water resources development	S.K. Sinha	India	74

THEME-5

HYDROLOGIC EXTREMES

Name of paper	Author/s	Country	Page No.
Statistical frequency analysis of hydrologic extremes : a review	Fashim Ashkar Bernard Bobee	Canada	75
A comparison of five distributions used in flood frequency analysis in Bangladesh	Md.Abdul Karim Jahir Uddin Chowdhury	Bangladesh	75
Functional relationships and asymptotic properties of distributions of interest in hydrologic frequency analysis	F.Ashkar B.Bobee T.B.M.J.Ouarda	Canada	76
Frequency analysis of Upper Cauvery flood data by L-moments	A.Ramachandra Rao Khaled Hamed	USA	76
Flood forecasting using ARX models	N.K.Goel Vu Van Hong	India Vietnam	77
Determination of shelter height in storm surge flood risk area of Bangladesh coast	Jahir Uddin Chowdhury	Bangladesh	77
Flood prediction through partial duration series	Arie Ben-Zvi	Israel	77
Drought : a Hydrologic extreme	P.K.Majumdar J.S.Rawat	India	78
A stochastic characterization of Palmer drought severity index	G.L.Loganathan S.Mostaghimi M.K.Tchaou V.K.Lohani	USA	79
Drought in the pennar basin using stream flows	B.R.K.Murty P.Venkatraman	India	79
Estimation of extreme floods with particular reference to Southern Africa	D.Stephenson	Africa	80
Robustness of flood frequency distributions in dealing with the outliers	K.Srinivasan B.S.Thandaveswara M.G.Devamane	India	80
Role of rainfall input in the real time flood forecasting	Mandakinee Majumdar Krashnendra Singh	India	80
Assesment of extreme floods in Indian tropical region	P.R.Rao	India	81
Delineation of groundwater resources in drought prone area of Upper Godduvanka river basin, Chittoor District, Andhra Pradesh using electrical resistivity method	T.V.K.Reddy S.S.Reddy N.Janardhana Raju	India	81

THEME-VI

WATER RESOURCES SYSTEMS

Name of paper	Author/s	Country	Page No.
Generalized headworks simulation modelling : the Australian experience	George Kuczera	Australia	82
Optimal operation of a reservoir for multiple crops - the case of Somasila reservoir	B.R.K. Murty P. Venkatraman	India	82
Optimal operating rule for reservoir with hydro power generation and irrigation	U.Ratnayake R.Harboe	Thailand	82
Optimal irrigation planning : a case study	V.Ravikumar K.Venugopal	India	82
Irrigation system performance : concepts, indicators, standards and application	N.K.Tyagi	India	83
Optimum reservoir systems operations: review of stochastic models	Taha B.M.J.Ouarda Fahim Ashkar	Canada	83
A decision support model for complex water resources systems	Joaquim Andreau Pierluigi Claps Mauro Fiorentino Maria Rosaria Margiotta	Italy Spain	84
Use of neural network theory in the stochastic optimisation of reservoir operation	F.Bouchart I.Goulter	Australia	84
Sampling, stochastic-dynamic programming applied to the operation of reservoirs	Jerson Kelman	Brazil	85
Optimal operation of the Mahanadi river project reservoir system	S.Narulkar P.P.Mujumdar	India	85
Application of stochastic dynamic program- ing - a case study	K.Venugopal M.S.V.Subhakar	India	86
Optimal interseasonal multicrop irrigation scheduling with different release levels and their performance in an uncertain environment	P.P.Mujumdar Y.Ellamraj B.V.Rao	India	86
An optimization model for multipurpose, multireservoir, screening, with explicit system yield reliability consideration	Amit Kumar Sinha B.V.Rao	India	86
Hydrological modelling of water resources for watershed reservoir - command area continuum	K.A.Rao R. Subbaiah	India	87

Name of paper	Author/s	Country	Page No.
Modelling for reservoir operation for irrigation	S.Vedula P.P.Mujumdar	India	87
Integrated river basin planning and development - some case studies	S.K. Sinha	India	87
Reservoir allocation studies of a five reservoir system - a case study	G.Lakshmikandam	India	87
Usefulness of IMD values of potential evapotranspiration to compute crop water requirement in water resources planning	A.K.Sharda K.Arumugam D.B. Singh	India	88
River flow prediction : a neural networks approach	L.K.Mishra G.K.Pradhan	India	89

THEME-VII

WATER RESOURCES PLANNING DEVELOPMENT & MANAGEMENT

Name of paper	Author/s	Country	Page No.
Irrigation systems management needs and opportunities	V.V.N.Murty R.Loof K.Takeuchi	Thailand	90
Action research for irrigation management - A case study	R.K. Singh	India	90
Can protective irrigation be more efficient ?	M.Jurriens W.Wolters	The Netherlands	90
Rational approach to sustainable water resources development of Nepal	Jit Narayan Nayak	Nepal	91
The occurrence of hydrological barriers in IGNP area and their possible hazards in canal irrigation	D.C.Sharma J.C.Dubey	India	91
Physical and biological implications of water transfer : A case study of California	Edward A.McBean Eduardo Bantista	USA	92
Integrated approach to watershed development for water conservation and artificial recharge to groundwater - A case study of Pune district, Maharashtra state	K.G.Welekar M.S.Vaidya S.B.Khandale	India	92
Water resources development - an environment approach	S.C. Dhiman	India	93
Experience on implementation of some selected water resources projects in Bangladesh	S.M.Khalilur Rahman	Bangladesh	93
Large scale exploitation of water resources : case of the South Eastern Anatolia project in Turkey	Nilgun B.Harmancioglu	Turkey	94
Extraction of drained waters from instable areas for minor agricultural use	V.A. Copertino G. Spilotro G. Vacca	Italy	94
Intensive rainwater collection and use to augment available water supplies	J.Hari Krishna	USA	95
Himalayan hydrology	Jagdish Bahadur	India	95

Name of paper	Author/s	Country	Page No.
Conjunctive irrigation in the Humid Alluvial plains - Imperativeness and issues	T.Prasad	India	95
The participation of landless people in construction and maintenance of FCDI projects in Bangladesh	S.M.Khalilur Rahman	Bangladesh	96
Case study: the breach at Rishikandi in Meghna-Dhonagoda irrigaton project in Bangladesh	S.M.Khalilur Rahman	Bangladesh	96
Hydrological impacts of Pathakhali-Konai flood control, drainage, and irrigation project : a case study	M.Mozzammel Hoque Syed Mohib Uddin Ahmed	Bangladesh	97
Hydrologic design of civil works: discontinuous bank revetment	Dhali Abdul Qaium	Bangladesh	97
Planning considerations for water resources development in Haor areas of Bangladesh	G.M.Akram Hossian Ainun Nishat	Bangladesh	98
Local level planning of small water resource schemes in a developing country	Ainun Nishat, Jahir Uddin Chowdhury M.Mirjahan M.Rezaur Rahman	Bangladesh	98
Integrated water resources planning	A.Rajamany	India	98
Water conservation in drought prone areas	R.S.Varshney	India	99
Status of multipurpose water resources projects in U.P.	H.S. Badarinath	India	99
Augmentation, conservation and development of ground water for sustainable optimum food grain production in Bundelkhand region	Dhaneshwar Rai Bharat Singh	India	99
Morphometric analysis in part of Mussoorie syncline	C.S.Agarwal B.Chakraborty	India	100
Study and development of drought assessment techniques	T.K.Ghosh G.K. Tripathy	India	100
Meeting water requirements of Ludhiana by managing storm water runoff	J.P.Singh	India	100
Optimal design and operation of a multi-purpose reservoir by stochastic methods	A.B.Dariane	Iran	101
An automatic electronic infiltrometer	Bhishm Kumar	India	101
A new technique for calibration of neutron-moisture probe	Bhishm Kumar, Rm. P.Nachiappan Rajan Vatsa	India	102

Name of paper	Author/s	Country	Page No.
A new automatic rainfall sensor	Bhishm Kumar V.C. Goyal Sandeep Gupta	India	102
Effective groundwater management for developing world	J. Balek	Czech Republic	103
Water resource planning development and management in West Bengal	R.N. De	India	103
Hydrological design of low dams in Kandi area (Mirzapur dam)	Ram Chand P.S.Narula S.N. Goel	India	103
Concept of critical pipes in the design of pipe networks	G.Prince Arulraj H.Suresh Rao	India	104
