

PREFACE

The Indian National Committee on Hydrology (INCOH) is an apex body, constituted by the Ministry of Water Resources in the year 1982 with its responsibility to coordinate various activities concerning hydrology in the country. The committee periodically updates hydrological activities and brings out state of art. It sanctions research schemes and provides technical support to Ministry of Water Resources (MOWR) in selecting the schemes and studies for funding as well as monitoring their progress. The committee effectively participates in various activities of UNESCO for nominating Indian Experts for various Working Groups, Reporteurs and taking part at various phases in research activities of International Hydrology Program (IHP) of UNESCO. Also, it contributes to disseminate hydrologic knowledge by organizing/sponsoring regional, national and international courses and workshops.

The committee has been bringing out a Bi-Annual Journal entitled "Jal-Vigyan Sameeksha" (Hydrology Review) regularly since 1986. This activity was taken up to disseminate information and thereby promote improvement in the standards of hydrological activity in the country. Following various issues have so far been brought out on the following themes :

Particulars	Number	Year	Themes
Volume I	No.1	1986	Drought
	No.2	1986	Hydrological Forecasting
Volume II	No.1	1987	Ground Water Management
	No.2	1987	Hydrological Network Design
Volume III	No.1	1988	Water Quality
	No.2	1988	Drainage
Volume IV	No.1	1989	Remote Sensing
	No.2	1990	P.C. Application in Hydrology
Volume V	No.1 & 2	1990	Soil Moisture
Volume VI	No.1 & 2	1991	Soil Erosion and Sedimentation
Volume VII	No.1	1992	Flood Hydrology
	No.2	1992	Water Conservation
Volume VIII	No.1	1993	Reservoir Operation
	No.2	1993	Education and Training
Volume IX	No.1 & 2	1994	Conjunctive Use of Surface and Ground Water
Volume X	No.1 & 2	1995	Watershed Management

This issue of Jalvigyan Sameeksha Vol.-XI, No.1, Year-1996 comprises of important hydrological activities of some selected organizations in the country. It include information on Workshops organized/held, Bibliography of various research publications appeared in National/Internation Journals/Conferences/Seminars/Symposia and Workshops. Efforts have also been made to include information on Awards and Honors and references of academic achievements of Individual/Organizations. It is expected that the information would be useful for all individuals and organisations dealing with water resources development and management in the country.

We are thankful to all organisations, who contributed information about their activities for publication in this issue of Jalvigyan Sameeksha.

(S.M. Sethi)
Director
