

Chakraborty

WORKSHOP  
on  
COMPUTER APPLICATIONS  
IN  
GROUND WATER HYDROLOGY

*October 12-16, 1992*

at

Institute for Water Studies, Madras

COURSE MATERIAL

आयोजित है भारत सरकार द्वारा

NATIONAL INSTITUTE OF HYDROLOGY  
ROORKEE-247 667

WORKSHOP

## CONTENTS

Sl. No.	Subject	Author
1.	L-1-Introduction to Computer Application in Ground Water Hydrology.	G. C. Mishra
2.	L-2-Groun Water Balance.	C. P. Kumar
3.	L-3(a)-Finite Difference Technique.	S. K. Singh
4.	L-3(b)-Tutorial on Ground Water Flow Model.	S. K. Singh
5.	L-4-Thei's Recovery Method.	G. C. Mishra
6.	L-5-Ground Water Data - Storage and Retrieval System.	S. K. Singh
7.	L-6(a)-Stream Aquifer Interaction for a Fully Penetrating Stream.	G. C. Mishra
8.	L-6(b)-A Mathematical Groundwater Flow Model for Assessing Surface Water.	G. C. Mishra
9.	L-7-Modelling Soil Moisture Processes.	C. P. Kumar
10.	L-8-Estimation of Artificial Recharge.	G. C. Mishra
11.	L-9-Determination of Aquifer Parameters Using Marquardt Algorithm.	S. K. Singh
12.	L-10-Three Dimensional Ground Water Flow Model.	S. K. Singh
13.	L-11-Analysis of Aquifer Test for Dug Wells Dug Cum Bore Wells.	G. C. Mishra
14.	L-12-Analysis of Unsteady Flow To A Well Having Delayed Yield.	G. C. Mishra
15.	L-13-Development of A Model For Groundwater Estimation.	S. K. Singh
16.	L-14-Unsteady Flow To A Multi-Aquifer Artesian Well.	N. I. H.
